

CPSC 2350 - AI Use Disclosure

Why this survey? This disclosure form aims to *help us understand and reduce any potential risks* related to the use of AI tools in this course.

Please complete the survey **by yourself** and be **truthful**. *Using AI tools will not negatively affect your marks for the assignment/lab/etc.*

What do we mean by AI tools in this survey?

AI content generators refer to any tools that create any type of content, including (but not limited to):

- ChatGPT and all other large-scale language models;
 - Stable Diffusion and other AI-based Image Generators;
 - Code extensions for IDEs;
 - Other tools that are capable of generating text, image, codes, or any other content for the course work.
- BUT, Grammarly and other grammar checkers are NOT included.

AI content
generators for
this submission
is...

6. Please explain your rating above regarding academic integrity of AI use for this submission.
Why? (Write in 2-3 sentences) * 

I personally feel, AI could be used to learn and implement code for people who have no prior experience in frameworks like react, tailwind, bootstrap. It could also be used for editing reports.

7. How did using AI content generators impact **your learning** for this submission? *

8. Please explain your rating above about AI's impact on your learning for this submission. (Write in 2-3 sentences, input N/A if you have not used any) * 

I had no prior experience in react. I used AI to understand how the react components work in our application.

9. For this submission, how would you rate the relative contribution made by your versus AI? *

	Entirely by myself, no contribution from AI	Mostly by myself, some contribution by AI	Evenly split between myself and AI	Mostly by AI, some contribution by myself	Entirely by AI, no contribution from myself
This submission is...	<input type="radio"/>	<input type="radio"/>	<input checked="" type="radio"/>	<input type="radio"/>	<input type="radio"/>

10. List all the **AI tools** AND the **specific prompts** you used for this submission (input N/A if you have not used any) *

I used Gemini for editing the reports to make them sound more professional. (I prompted the given requirements for making the report and gemini returned me with the structure. Then I added the content and got it rephrased again)

Also, ChatGPT was used to test the prompt multiple times to create the quiz, get explanations, hints, and feedback since we used OpenAI's API.

11. How confident were you in AI's responses that you received? *

- ☐ Confident
- ☐ Somewhat confident
- ☒ Neutral
- ☐ Somewhat not confident
- ☐ I did not use AI for this submission

12. How did you ensure the answer you received from the AI tool was correct? (input N/A if you have not used any) *

I did not like some sentences added by the AI, they were added unnecessarily.

13. Did you at any point abandon using AI tools and seek other resources? Explain your answer. *

What made you abandon using the AI tool? Were you more successful using other resources? Input N/A if you have not used any

While I was trying to grasp things on Chatgpt, sometimes I noticed that it has a lot of content that was unuseful. But then I used youtube and the react's website (<https://react.dev/learn>) which made far more sense than chatGPT.

14. For each of the following items, how would you rate the relative contribution made by you versus AI? *

Entirely by myself, no contribution from AI

Mostly by myself, some contribution by AI

Evenly split between myself and AI

Mostly by AI, some contribution by myself

Entirely by AI, no contribution from myself

Not applicable

Writing - Proofreading:

To revise written work for grammar, typos, style, and other related items

Writing - Text Completion:

To complete sentences, paragraphs or even entire documents

Writing - Text Ideation:

To generate new ideas, concepts; and examples for writing submissions

15. Please explain your ratings above, especially if you have AI tools for "other" types of work. *

As mentioned above, to complete the reports AI was used to generate the structure and rephrase. Also I used AI to write code for API calls since openai had code in some other language in its documentation and I prompted it to change into node.js. For making some buttons I had to understand react code that was on our application.

16. Please leave any further comments above use of AI tools for this submission / CPSC 2350 *

AI is a great tool to learn and its use should be promoted for almost every course.
